Product Information and Dosage Details

Hydrocodone is an opioid medication used for pain management under medical supervision. It works by altering how the brain and nervous system respond to pain signals, helping patients regain comfort during recovery or chronic conditions.

Dosage Strength	Usage Frequency	Purpose
5mg / 325mg	Every 4–6 hours	Moderate pain relief
10mg / 325mg	Every 6 hours	Severe pain management

Always use Hydrocodone as prescribed by a licensed healthcare professional. Avoid taking more than the recommended dosage.
